STANDARD CONDITIONS

This permit is granted pursuant to Section 39 of the "Environmental Protection Act", and the "Solid Waste Rules and Regulations" as authorized therein, and is subject to the following conditions:

1. If any statement or representation in the application is found to be incorrect, this permit may be revoked and the permittee thereupon waives all rights thereunder.
2. There shall be no deviation from the approved plans and specifications unless additional or revised plans are submitted to the Environmental Protection Agency and a supplemental written permit issued therefor.
3. The Applicant must notify the Illinois Environmental Protection Agency in writing that the development of the site has been completed in accordance with the Development Permit before a pre-operation site inspection can be conducted or an Operating Permit issued. During or after the development of a solid waste management site or facility for which a permit has been issued, any agent duly authorized by the Environmental Protection Agency shall have the right and authority to inspect such work and operation.
4. This permit, (a) shall not be considered to affect the title to the premises upon which the solid waste management site or facility is to be located, (b) does not release the permittee from any liability for damage to person or property caused by or resulting from the installation, maintenance, or operation of the proposed site, or facility, (c) does not release the permittee from compliance with other applicable statutes of the State of Illinois, or with applicable local laws, regulations or zoning ordinances.
5. This permit is void one year from the date of issue unless development of this project has started on or prior to the date of expiration.
6. This permit is subject to review and modification by the Environmental Protection Agency as deemed necessary to fulfill the intent and purpose of the Environmental Protection Act.
7. This permit is subject to revocation by the Pollution Control Board upon a finding that any of the aforementioned conditions have been violated, or upon any violation of the Environmental Protection Act or any Rule or Regulation effective thereunder.
